

PRESS RELEASE**INSPECTION AND TRACEABILITY BEYOND COMPLIANCE
ANTARES VISION GROUP AT THE FOREFRONT OF INNOVATION AT PHARMAPACK 2025**

During the event, the Group will focus on the features of its integrated ecosystem of solutions from L1 to L4

Travagliato (Brescia), 14 January 2025 – **Antares Vision Group**, a leading player for traceability and visual inspection solutions, will present its latest technological developments for the Life Science sector at its Stand A35 in **Pharmapack**, the Europe's leading packaging and drug delivery event, scheduled on January 22-23 in Paris (France).

Antares Vision Group integrates packaging lines with state-of-the-art inspection systems and provides standalone inspection machines equipped with the best technology for each specific need. This is possible thanks to **DIAMIND**, the Antares Vision Group's **modular and integrated ecosystem of solutions**, encompasses all the Group's latest and most important innovations, solutions and technologies. DIAMIND drives the path towards **digital transformation of pharmaceutical lines** with a **comprehensive data-driven plant management platform** and **enhances the supply chain** with serialization, aggregation and end-to-end visibility.

At Pharmapack, **Antares Vision Group** will show **its serialization and aggregation technology** deployed on thousands of packaging lines worldwide, **managing complexity through seamless integration on third-party equipment as well as standalone modules**. Antares Vision Group leads the way in track & trace hardware and software with a **well-established, natively modular and comprehensive solution covering level 1 to level 4** compliance for EU-FMD, DSCSA and any other regulatory requirement, **ensuring business continuity and full-service support**.

In fact, to provide data on **product traceability and safety** (e.g., batch number and expiry date), from 2027 the traditional barcode will be subsumed by the new technology **GS1 Digital Link**, able to contain data that can be digitally readable, through the barcode, by any device in use today. The accessibility of information will bring **transparency to the entire value chain**, help **build trust between consumers, producers**, and all those involved in the supply chain, and **improve the processes of traceability, inventory management, product recalls, and cost control**.

In Paris, Antares Vision Group also will display its new range of **checkweighers** designed for maximized efficiency and seamless line integration. In particular, Antares Vision Group will present the enhanced capabilities of its **high-performance checkweigher HR600 PHC**, equipped with a SCADA system that **ensures compliance with 21 CFR Part 11**. This advanced solution exemplifies the pinnacle of precision in pharmaceutical quality control, ensuring unparalleled accuracy and safety in the production process. The HR600 PHC is designed to meet the stringent demands of the pharmaceutical industry, where precise measurement is critical for both **quality and patient safety**.

*"Our portfolio of solutions – says **Gianfranco Landolfi, General Manager Life Science at Antares Vision Group** – aims to apply the **latest technologies innovations to the Life Science sector**, in order to meet the needs of a demanding market, which is called upon to **meet regulatory compliance, product quality and patient safety requirements**".*

PRESS RELEASE

ABOUT ANTARES VISION GROUP

Antares Vision Group is the Italian multinational company that ensures product safety and supply chain transparency thanks to innovative technologies for quality control (inspection systems and machines), end-to-end traceability (serialization and aggregation solutions) and integrated data management (powered by artificial intelligence and integrated with blockchain). It operates in the Life Science (pharmaceuticals, biomedical devices and hospitals), Cosmetics and FMCG (*Fast-Moving Consumer Goods*) sectors, supporting companies in digitalizing processes to improve sustainability, efficiency, productivity and visibility. It is a world leader in drug traceability, supplying the world's leading manufacturers (more than 50% of the top 20 multinationals) and numerous government authorities. It is present in more than 60 countries, employs more than 1,200 people and has a network of more than 40 international partners. The Company has been listed on the Euronext STAR Milan segment (EXM, AV:IM) since 2021 and reported revenues of €214 million in 2023, up 7% from 2022. www.antaresvisiongroup.com
